mr.mcshan mr.smoke

I'll probably get it tonight hun so you can get back home before you gotta go to work or I can get it tomorrow and you can come out when you get off work and just stay the night.

You make me so upset. I fucking love you. I love every little thing about you even when you get pissed off cause i know you care. I love when your protective cause it makes me feel like I'm cared for. I would give you anything I can right now. And I love the look in your eyes when you look at me. I love when you cuddle up next to me and the way you say my name. I love hearing your voice when I'm having a bad day or just in general. I love the way you talk about the future. I love when we plan our future out late at night or when your being a silly goose. And I love the way you want to help these girls cause you know how it really is. I love your compassion and your heart. I love the way you think even though it isn't always the best. I love how you can make me pissed as fuck but instantly put a smile on my face. I've never given anyone myself the way I have with you. I love how much you care about everyone in your life and how you would do anything. And I love how passionate you are about your garden even if you don't like doing it. I love your motivation. I love the way you say I love you. I love the way you gave me a chance and promised to never leave. I love every single thing about you. You have pushed me to become my best self even if I'm not at the moment but I'm a lot stronger, a lot more motivated, a lot more focused, looking to every moment with you even if it's you being an ass towards me. I accept everything about you even the bad shit. I want to know everything go

Going through your head. I want to live an amazing life with you even if it's hard as fuck cause everything is hard in life. But you're worth it. You're worth everything. I would give up anything for you, I would if you were really serious about it. I have proven myself to you multiple times and I'm still doing that everyday. I love you

I work for the money I'm getting you. I get paid every other week and I've been thinking of ways to get more money but their isn't much I can do cause idk. You can count on me but I need time cause of my job. I've kept my word and gotten you money before so yes I can get you the money and the girls. I'm gonna have to go on meetme to get these thots if you don't care. Cause there isn't many people on tinder just giving away their bodies cause they got standards unlike these bitches on meetme. Just saying.

Then don't fucking wait on me. I'm not fucking surrounded by thots Michael. But people I can't fucking trust. Everyone will open their damn mouth and you said you got hoes. Then go fucking do that. I'm fucking sorry I'm not good enough for you. Get your shit done. I don't give a fuck anymore even though I care a shit ton. I'm doing what I can with what I got and you don't give a shit. So go do whatever the fuck you need to do. I'm fucking done fighting with you when you know I can't do a lot cause of my age and the people around me. I've fought with you many times about this shit and other shit. You knew what the fuck you got yourself into and you said you could do it. But no. You need your hoes, youre money and everything else. If you don't trust me, then what the fuck ever. I've proven myself to you countless fucking times ever since we started talking. I'm fucking loyal as fuck to you but you don't think of it like that. I'm not some fucking hoe that you found that's gonna fuck you over. I can handle not seeing you for awhile cause I know it'll be worth it when I do but seems like you can't. You always used to get pussy and I can't always give it to you. And you're also pissed asf at me and didn't even want to fucking talk to me last night. When we could have worked it out. I'm not your fucking sugar momma, I can't give you all the money in the world or give you pussy whenever. I'm fucking sorry.

Lives together. And you think I don't feel what you feel about the money shit? And bills? Every day for years I had to struggle through what I wasn't going to survive today? When will I next eat? Will I be able to protect my siblings? I lived in fear of me and my family's lives every day. I was not always the white chick that got my way. Or spoiled. I was poor and I always took care of e erroneous else

Fuck you for not believing in me. Believing that I will give you everything and no excuses. You see how I am towards everyone in my life, I will do anything for them. And yes I would wait for you. Yes I would. I would have been grateful for everything you would have gave me and been glad that you were giving me everything you can. Yes 17 will change everything because I am able to be there physically and you have seen how much I have grown in 4 months and I will be an amazing woman with you. But you don't believe in me when I need you to. So fuck. You. For not looking towards the future and believing in me. And no I didn't fucking cheat on you. YOU HAVE EVERY ASPECT OF ME AND I AM OFFERING YOU THE WORLD. But. You don't care about that anymore.

this isn't who you are deep down. You're thoughtful, considerable, caring, sweet, loving and protective. Expressive. Amazingly smart, funny. You're not a whore, you're a man with integrity and love. You give. You build and grow. You're driven. You can't let yourself go down that bad path again. I have fought every day for myself to be okay so we can both get through this. I have fought to try and make you happy or made you laugh or smile. Or been silly just to make you smile just so you can have some joy in your life or when you're having a bad day and it's evident. I know that you doing this all is on purpose. For a big reason.

This is her. She's 19, she lives in seabwaig but she doesn't have her licenses yet cause of lack of money. She doesn't have a job yet cause lack of transportation. She's very serious and she said that she would love to hang out and get to know us and smoke and drink. She's not on any bullshit. She was cheated on a few times, and she's had bad experiences with boys. Also she does have anxiety but she's street smart and she's graduated high school
